Reference for Thomas Condran

Date: 16 October 2024

To Whom It May Concern,

I am writing this letter of reference for Thomas Condran, who was a student in my Human Centred Systems Design course at University of Wollongong.

Throughout the course, Thomas demonstrated exceptional qualities that I believe would make them an asset to any organization:

1. **Consistent Attendance and Engagement:** Thomas maintained perfect attendance and actively participated in class discussions, showing a genuine interest in the subject matter.
2. **Strong Research Skills:** His project work and assignments consistently reflected thorough research and a deep understanding of human-centered design principles.
3. **Analytical Thinking:** Thomas excelled in analysing complex user needs and translating them into practical design solutions.
4. **Teamwork and Communication:** During group projects, Thomas demonstrated excellent collaboration skills and effectively communicated ideas to peers and in presentations.
5. **Innovation and Creativity:** Thomas' final project showcased innovative thinking in addressing real-world design challenges.

As a result of their dedicated efforts and skills, Thomas achieved one of the highest grades in the class, demonstrating not only academic excellence but also practical application of the course material.

I am confident that Thomas would be a valuable addition to any team requiring skills in user-centred design, research, and innovative problem-solving. If you require any further information, please don't hesitate to contact me.

Sincerely,

Katina Michael
Human Centred Systems Design Instructor
Honorary Professor University of Wollongong, School of Business
Tenured Professor Arizona State University
